

# Undergraduate Education Officer Report

## July

- In house officer training was completed in June before the role began. This training included specifics for each of our roles along with working with our predecessors to begin the handover process.
- Attended USI Student Union Training in Tralee over a 5 day period. This helped set a basis for how the National Unions work along with providing informative sessions on a variety of topics.
- Attended Pride alongside the other officers.
- Met with Faculty reps to discuss our priorities for the year.
- Planned and assembled training for School and Faculty reps which was delivered in August alongside SU voice.
- Worked with SU voice to understand what was done last year surrounding reps, along with how the system as a whole works on both the University and Student Union sides.
